

- Made of 100% copper
- Build quality with minimal tolerances
- Reduce residues in the barrel
- Optimal ballistics with various kind of rifling

## MRR BULLETS / MONOLITHIC COPPER BULLETS

### GREEN HUNTING

Expansive bullets, designed and optimized for hunting purposes. The perfect equilibrium provided by the bullet front apical boring and the strength of the material, grant an excellent terminal effect.

### GREEN SPORT

Designed for precision shooting up to 300 m. Built in a special alloy, Hollow-point bullets are also available, so that you can use them in shooting ranges that do not allow FMJ or monolithic bullets.

Calibro	Peso	Diametro	Lunghezza	CB (G1)	Codice	Scatola	Prezzo
.30	152 gr / 9,85 g	7,82 mm	33,70 mm	0,435	A1860	50	57,50 euro
.30	158 gr / 10,24 g	7,82 mm	32,97 mm	0,440	A1909	50	60,75 euro

**Nota:** la versione da 158gr è di tipo hollow-point, a espansione, come richiesto dalle normative di alcuni campi di tiro.

### GREEN LONG RANGE

Spitzer bullets, designed for precision shooting beyond 300 m. Built in a special alloy, heavier than the GREEN SPORT line and with a high ballistic coefficient, for a better trajectory stability.

Calibro	Peso	Diametro	Lunghezza	CB (G1)	Codice	Scatola	Prezzo
